# Progressive Everbearing Strawberry

Every man who owns a garden—whether it be a commercial or “back yard sort”—should plant some of these wonderful Progressive Everbearing strawberry plants.

Hardy and prolific, abundant producers, this great variety is revolutionizing the strawberry industry. A “perfect” or stamineate variety. Planted in April, it fruits in July and bears until it is killed by frost.

“Strawberry shortcake” in November is not a luxury, but an every day occurrence with “Progressive” planted in your home garden.

As a commercial berry it has no equal, as it produces at a time when berries are at a premium, as

Everbearing Strawberries have blossoms, green fruit and ripe fruit on until a killing frost comes.

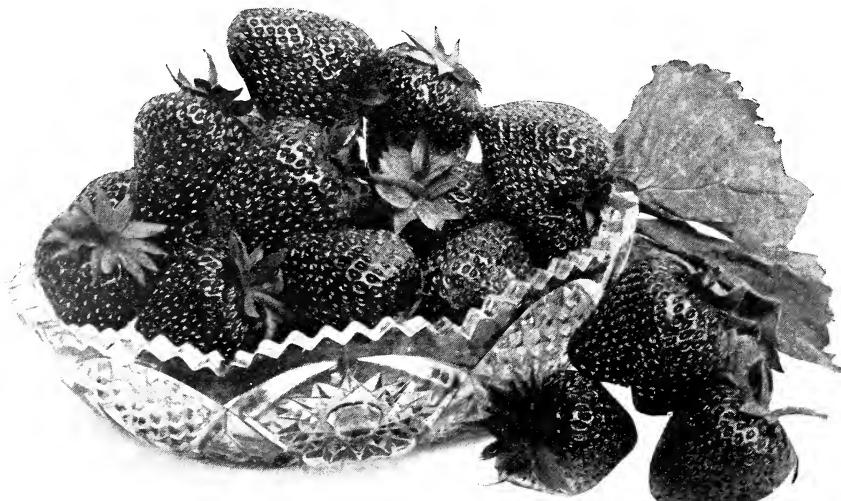

the following will show: On Nov. 5th, 1915, we picked 24 pints of berries and sold them on the city market in St. Joseph, Mo., for \$7.00—a fraction over 29c a pint.

“Progressive”—all that the name implies as a “fall dollar producer.”

This berry is not in the experimental stages, but has been produced after 10 years of proving up to its present standard.

Mail your order today as our supply is limited.

## Harvest the Big Dollars in the Fall From This Wonderful Variety

Red Ripe Everbearing Strawberries make a tempting dish when the chill November winds are blowing outside

# **Senator Dunlap**

is a large, handsome berry, tapering to a point, or wedge-shaped, very uniform in size and appearance. The deep, glossy red color shades to a dark red or scarlet on the under side of the berry; prominent yellow seeds, forming a beautiful contrast; far above the average quality; exceedingly juicy and tender; with a delicate flavor which makes it a popular variety with the consumer. Flesh is bright red, and firm; fine for preserving and canning. Plant is one of the hardiest and most vigorous grown; heavy crown; prolific plant-maker; a "perfect" or stamineate variety. Senator Dunlap is one of the most consistent money-makers. It not only ripens early, but continues through the whole season.

---

If There Is a Better One We Have Never Seen It

Senator Dunlap is one of the most popular of the spring varieties. You could not plant a better combination than Senator Dunlap and Progressive Everbearing. This gives you luscious fruit from spring to late fall
